## a powerful combination

Morgan Lewis's interdisciplinary Clean Technology team serves the full range of needs of energy companies involved in producing clean power and developing energy-efficient technologies. With new legislation and funding opportunities continuously being created, we work with clean technology clients to chart the best course of action for their companies.

As clients pursue these new opportunities, we continue to place the highest value on the long-term relationships we enjoy with our clients. We are committed to partnering with clean technology companies throughout their life cycle, from R&D, financing, and patent protection to commercialization, strategic partnerships, and exit strategies.

## services

Our cross-disciplinary team of lawyers advise on a wide range of transactional and regulatory issues, including the following:

- Venture financing
- Project finance
- Power purchase agreements
- Energy regulation, including sale of carbon credits
- Mergers and acquisitions
- Securities law compliance
- Land-use planning
- Tax strategies
- Employment and executive compensation strategies
- Intellectual property protection
- Environmental issues, including climate change

Connect at Morgan Lewis is a national program offered by our Emerging Business and Technology Practice to connect investors, entrepreneurs, and executives. In addition to efficiently guiding clients through complicated legal issues, we offer them opportunities to refine their presentations and to make connections with investors and business partners.

## representative industries

- Biofuels
- Biomass
- Fuel cells
- Geothermal
- Hydro
- Landfill gas
- Solar
- Wind
