

Alvarez & Marsal

Cybersecurity: Legal, Regulatory, and Practical Challenges Facing the Insurance Industry

Speaker: Katherine Wade, Matthew Fitzsimmons, Art Ehuan, Scott Harrison, Mark Krotoski, Daniel Savrin

Date: May 19, 2015

Time: 12:30 p.m. – 2:00 p.m.

Location: Hartford, CT

Program Level: Basic

Pre-requisites: None

Advanced Preparation: None

Program Description: This will be an informative presentation regarding cybersecurity and the unique issues that insurance companies face.

Learning Objectives: After this course participants will be able to:

- 1) Define the traits of those who are likely to hack your systems, their financial motivations and the financial impacts that hacking can have on your business
- 2) List the key components of developing the compliance framework for insurance companies regarding cyber security and best practices
- 3) Apply the framework to the new world of litigation surrounding data breaches, including the likely financial costs of supporting litigation

Recommended CPE Credits: 1.5

Recommended Field of Study: Business Law

Delivery Method: Group-Live / Group-Internet Based

Course Registration Requirements: Accept Outlook invitation sent by Morgan Lewis
